

Technical Datasheet

Chemical gas systems - FSL 1230™ / FSL 5112™

Pneumatic Actuator - NF26020

This pneumatic release device is used for pneumatic actuation of multiple high pressure cylinders in series, which are connected to the master high pressure cylinder by a pilot hose.

High pressure cylinders equipped with a pneumatic release device serve as slave high pressure cylinders.

Legend

- ① Connection thread
- ② Pilot port connection
- ③ Adapter 029510006

Technical data

Article number	NF26020
Connection thread	M42 x 1,5
Operating pressure	300 bar
Pilot port connection	2 x G 1/8"
Pressure to open	min. 21 bar for 300 bar systems: p. max = 360 bar min. 15 bar for 200 bar systems: p. max = 240 bar
Minimum pressure to open duration	≥ 1 second
Temperature range	-20°C to +50°C
Adapter 029510006 connection	G 1/8" / M12 x 1,5
